Eliminate Pesticides and Bacteria Safely & Naturally

There are a variety of pesticides that are used on food all over the world. While many of these pesticides may be safe, others can be potentially harmful to humans. Pesticides can cause adverse health effects such as cancer, reproductive problems, and harm to the immune system and nervous system.

HydroPlus is a device that uses only tap water and table salt to generate an active solution that eliminates pesticides and bacteria. This process is

environmentally-friendly and avoids the need for irritating or dangerous chemicals.

With natural ingredients, HydroPlus removes contaminants from your produce, greatly reducing the amount of harmful chemicals that you are ingesting.

CLINICALLY TESTED BREAKTHROUGH

Tap water is not the most effective way to clean your produce. Other methods, such as produce wash can leave a weird odor and taste on your fruits and vegetables.

After years of rigorous clinical trials, here's what we found that works best:

- Sodium (NaCl)
- Water (H₂O)
- Electrolysis (electrical purification process)

Combining these three elements is the secret sauce that results in a highly effective, portable produce purifier.

78% More Effective: The Safe and Easy Way to Remove Contaminants

This breakthrough formula breaks down the molecular structure of the contaminants turning them into harmless and non-toxic substances that can be easily removed with a quick rinse.

HydroPlus gets rid of...

- bacteria
- mold
- pesticide residues

And ultimately, enhances the natural taste of your produce.

Resulting in perfectly clean and naturally tasting fruits and vegetables.

Many customers have found that by using HydroPlus regularly, they have an increased appetite for fruits and vegetables, and consequently, an overall improvement in their health.

-
- Gets rid of 99% of pesticides & bacteria
 - Leaves no unpleasant odor & aftertaste
 - Increase the lifespan of your fruits & vegetables (save money)
 - Promotes a more natural lifestyle leading to less diseases

ORGANIC: IS IT EVEN SAFE?

(You'd be surprised)

Organic produce has become increasingly popular in recent years as more and more people seek to avoid pesticide exposure. However, it is important to remember that organic does not necessarily mean pesticide-free. In fact, according to Michael Pollan, organic fruits and vegetables can contain different pesticide chemicals than conventionally grown produce.

This is because organic farmers are allowed to use a limited number of pesticides that are considered "natural."

However, these pesticides can still be dangerous, especially for children whose livers may not be able to properly process the chemicals. Therefore, it is important to be aware of the potential risks before eating any organic produce.

WHY HYDROPLUS IS BETTER

HYDROPLUS	OTHER METHODS
Up to 99.9% Effective in Eliminating Contaminants CONSISTENTLY	Low decontamination rate
Chemical Free	Uses harmful chemicals to decontaminate
Maintains food quality	Chemicals harm food quality
Safe for everyday use	Negative effects of unnatural decontamination build up
Healthier Lifestyle	Affects health

OUR EFFORTS TO IMPROVE NEVER END

We want to make sure that we know the limitations and potential of HydroPlus to maintain and keep up with International standards. Below is the list of our results that you can go through yourself to see the power of HydroPlus.

Note: We are constantly updating the list.

VIRUS AND BACTERIA	
E. Coli Bacteria	99.9%
Influenza	98.5%
Salmonella	99.9%

PESTICIDES AND CHEMICALS	
Cypermethrin Pesticide	94.8%
Chlorpyrifos Pesticide	95.6%
Malathion Pesticide	96.7%

FREQUENTLY ASKED QUESTIONS

DOES IT HAVE UNSAFE CHEMICALS?

We use food-grade materials to make sure that it's safe for use.

HOW LONG DO I NEED TO LEAVE IT ON?

We encourage that you leave it on for a minimum of 5 minutes to a maximum of 30 minutes for the best results.

DOES THIS ONLY WORK ON FRUITS?

No! You can use it for a variety of food including fruits and vegetables.

WHAT IS YOUR RETURN POLICY?

All orders are covered with our 30-day guarantee. The items will be accepted back with full refund if they meet all of our returns terms and conditions and a request has been submitted within 30 days of receipt of the package.

HOW LONG WILL SHIPPING TAKE?

The shipping time to US/UK/AUS/NZ/CA is 6-16 business days. If your order hasn't arrived within the estimated delivery time, please check the tracking number or contact our support team at support@sampleemail.com

CAN I TRACK MY PACKAGE?

A Tracking Number will be sent to you by email 5-7 days after your order has been placed. If you didn't receive your tracking number within the time frame below, please contact our helpful support team.

I RECEIVED THE WRONG ITEM, WHAT CAN YOU DO?

We apologize for this inconvenience. We'd be delighted to help you right away by offering a free replacement order. Just send us an email at support@sampleemail.com

WHAT PAYMENT METHODS DO YOU ACCEPT?

We accept all major credit cards Visa, Mastercard and American Express and PayPal.

CAN I ADJUST MY ORDER AFTER I HAVE PLACED IT?

Unfortunately, it is difficult to change your order or the shipping address once it has been placed. We aim to deliver the best products and services for you, so our warehouse is processing orders within a few hours of receiving them.

If a change is absolutely necessary please contact us within 3 hours max from when the order is placed and we will do our best to help out.

DO YOU OFFER FREE SHIPPING?

Yes, we offer fast free shipping straight to your doorstep!

MY ORDER ARRIVED DEFECTIVE. WHAT CAN YOU DO?

In these unfortunate events, we would be glad to send you a new one! Just send us an email at support@sampleemail.com
